THE WORLD GAMES 2025 CHENGDU

2 GENERAL INFORMATION

2.1 Province and City

2.1.1 Sichuan Province

Situated in southwest China and on the upper reaches of the Yangtze River, Sichuan is renowned as the “Land of Abundance”. It covers an area of 486,000 square kilometres and borders with seven provinces (including autonomous regions and municipalities directly under the central government), namely, Chongqing, Guizhou, Yunnan, Xizang, Qinghai, Gansu, and Shaanxi. The province has a permanent resident population of over 83 million.

Boasting a long history, Sichuan is the cradle of ancient Shu civilisation, and the place where “Jiaozi”, the earliest banknote in the world, was born. Shu Brocade and Sichuan Shadow Play have been included in UNESCO’s list of intangible cultural heritage. In particular, the sites of Sanxingdui Site and Jinsha Site epitomise the resplendent and mysterious civilisation of ancient Sichuan.

The province also abounds in tourism resources. Among the 26 global tourism resources and brands, there are 3 World Natural Heritage Sites including Jiuzhaigou Valley, Huanglong Scenic and Historic Interest Area and Sichuan Giant Panda Sanctu-

aries, 1 World Cultural Heritage Site (Mount Qingcheng and the Dujiangyan Irrigation System), and 1 World Cultural and Natural Heritage Site (Mount Emei and Leshan Giant Buddha Scenic Area).

Sichuan is active in external exchanges. As of December 2024, it has established friendly relations with 500 provinces/states in 87 countries/regions, and economic and trade relations with over 200 countries/regions. A total of 381 Fortune Global 500 Enterprises have operated in Sichuan. Chengdu, the capital of Sichuan Province, is among the Chinese cities offering a 240-hour visa-free transit policy for travellers from 54 countries.

2.1.2 Chengdu

2.1.2.1 Basic information

Chengdu is the hometown of the Giant Pandas and enjoys over 4,500 years of civilisation history and more than 2,300 years of history as a city, manifesting a perfect mixture of history, culture and modernity. Being the capital of Sichuan Province and a central city in southwest China, Chengdu covers an area of 14,300 square kilometres and has a permanent population of 21.4 million, which has turned it into a megacity known to the world. It is also an important centre of economy, science and technology, finance, cultural creativity, and international exchanges in China, and an international hub for comprehensive transportation and communications.

Today's Chengdu values opening up with global vision. In total, 23 countries have been approved to establish consulates in Chengdu. And the city has established sister-city and friendship city relations with 113 cities around the world, and trade relations with 235 countries/regions worldwide. Chengdu is the third city having two international airports on the Chinese mainland, following Shanghai and Beijing, and the 19th

city with two 4F airports in the world. In 2024, the passenger throughput exceeded 87 million. As of December 2024, it has opened 73 regular international and regional flight routes, covering both passenger and freight services. In addition, it is linked to 118 overseas cities through its international freight train services.

Chengdu has been awarded as the City of Gastronomy by UNESCO for its world-renowned Sichuan cuisine, great variety of delicious street food, and tasty spicy hot pot. It is also selected by UNWTO as China's Best Tourist City. Tianfu culture, the bedrock of Chengdu's city culture, has been nourishing the people and the city with the spirits of valuing innovation, creativity, elegance, fashion, optimism, inclusiveness, friendship, and public welfare. Chengdu has successfully held the Chengdu FISU World University Games, the Thomas & Uber Cup Finals 2024, among other major international events. Culture and sports have become the two focal points as Chengdu is going global in a more open and confident manner.

2.1.3 Geography and Climate

2.1.3.1 Climate

Located in Sichuan Basin, Chengdu has a monsoon-influenced humid subtropical climate characterised by mild weather with no extreme heat in summer, rare ice and snow in winter, plenty of precipitation in autumn and at night, and low-speed winds and high relative humidity. On average annually, the city has a temperature of 16.7°C, a precipitation of 948.6mm, and humidity of 80%.

2.1.3.2 Weather in August

TWG 2025 Chengdu will be held during the height of summer in Chengdu, the period featuring the highest temperature, most precipitation, and most severe convective weather in the year.

During this period, there may be major meteorological disasters with great impacts, including high temperature, rainstorm, strong wind, hail, thunderstorm, as well as secondary disasters such as mountain torrents, floods in small and medium-sized rivers, geological disasters, and urban water logging caused by heavy rainfall.

Chengdu is relatively hot from early-August to mid-August, with abundant precipitation and high humidity. This period sees few haze, high visibility, relatively low average wind speeds, and occasional convective weather.

a. Temperature

During this period, the average temperature is 25.8°C, and the difference between day and night is about 8.5°C. The temperature usually remains stable, with the highest daytime temperature ranging from 31°C to 39°C. The average number of days with temperatures exceeding 35°C is 2, while the maximum is 16 (2022 and 2024).

b. Precipitation and humidity

Chengdu receives abundant rainfall during this period, mostly at night while only a little in the daytime that lasts only one to three hours. The average precipitation is 164.3 mm. It is expected that heavy rains severely impacting the competition will not occur frequently. The humidity ranges from 48% to 100%, with 82.4% on average.

c. Wind

This period is often wind-free or sees low-speed winds, with an average wind speed of 1.2 m/s. Northerly wind or northeasterly wind prevails, with the lowest wind speeds occurring from 00:00 to 08:00. Winds gather speed at noon and slow down in the evening. Convective gusts occur occasionally for a very short duration, usually within 30 minutes.

d. Visibility

During this period, the visibility is relatively high and there is little fog. The horizontal visibility ranges from 2.6 km to 28.2 km, with an average of 20.8 km.

THE WORLD GAMES 2025 CHENGDU

4 COMPETITION INFORMATION

(Update Notice: This version was last updated on 22 July 2025. For any subsequent questions, please refer to the competition format published on the official website of the relevant International Federation.)

4.1 Competition Format

4.1.1 Format

4.1.1.1 Lyonnaise

- Eight athletes/teams compete in two qualifying rounds. The second qualifying round begins with athletes in the same order as in the first qualifying round. The results of both rounds are added together to determine the qualifying order.
- The top four athletes/teams advance to the semi-finals.- The losing semi-finalists compete for bronze. The winning semi-finalists compete for gold and silver.
- Best four athletes/teams proceed to semi-finals.
- Losing semi-finalists compete for Bronze. Winning semi-finalists compete for Gold and Silver.

4.1.1.2 Pétanque

4.1.1.2.1 Classic Doubles

- Round 1 : 4 Matches are played.
- Round 2 : 4 Matches are played. The 4 winners and 4 losers of the first round face each other (2 by 2). The winners qualify straight for the semi-finals.
- Round 3 : 3 Matches are played. All 4 teams that have won one match and lost one match will face each other. Losers of Round 2 compete for 7th place.
- Round 4 : 3 Matches are played. Winners of Round 2 and 3 face each other in semi-finals. Losers of Round 3 compete for 5th place.
- Round 5 : 2 Matches are played. Losing semi-finalists compete for Bronze. Winning semi-finalists compete for Gold and Silver.

4.1.1.2.2 Precision Shooting

- Round 1 : Nine athletes compete in the first qualification round. The best two athletes qualify for the semi-finals.
- Round 2 : Seven athletes compete in the second qualification round. The second round starts with the athletes having achieved the lowest score in the first round. Results of both rounds are added to determine the qualification ranking. The best two athletes from the second round qualify for the semi-finals.
- Round 3 : In the semi-finals, the best athlete from first round competes against and second athlete from second round. The second-best athlete from the first round competes against the best athlete from second round.
- Round 4: Losing semi-finalists compete for Bronze. Winning semi-finalists compete for Gold and Silver.

4.1.2 Rundown of Competition

4.1.2.1 Lyonnaise

Prior to start of competition, the FOP will be set-up (2 minutes) and athletes have three (3) minutes to warm-up on the FOP right before their competition. All athletes/teams compete over five minutes in each round.

In Progressive, athletes compete at the same time without stopping, as they run from one end and aim to hit the white target at the other end. They even run up after releasing the boule. When they arrive at the other side, they take another boule from a post and aim to hit the white target on the opposite side.

The first white target is on a carpet about 13.05 m away from the release line. It can be moved to three different distances, after each successful hit it moves by 80 cm. If the white target is not hit, the distance remains unchanged.

Once the final distance is reached at 14.65 m, the distance will decrease again by 80 cm per distance. This procedure is repeated until the time is up.

The individual with the highest score at the end wins. In the team competition, each player successively shoots 4 balls before passing the baton to the partner in the relay zone. The position of the targets is fixed.

4.1.2.2 Pétanque

4.1.2.2.1 Classic Doubles

The team that wins the coin toss gets to place the circle. The starting athlete will first throw the jack to a distance of 6-10 meters and afterwards throw the first own boule. The opponent then gets a turn to land the boule closer, by either landing the boule closer to the jack or by knocking away the opponent's boule further.

From that point on, the team with the boule that is closest to the jack is said to 'have the point'. The team that does not have the

point throws the next boule until it either gains the point or runs out of boules. Afterwards, the other team will throw the rest of their boules. All athletes have three boules. Teams may decide in which order their athletes throw their boules.

At the end of a play, the team with the boule closest to the jack wins the end. A team scores as many points as boules are closer to the jack than the closest boule of the opposing team.

The winning team will start the next end by placing a circle around the jack. The next round will start from that point by throwing the jack in the opposite direction to a distance of 6-10 meters.

The game ends when one team gets to 13 points. Games may end earlier if a pre-defined time was fixed.

4.1.2.2.2 Precision Shooting

Each shooter must perform a complete series of twenty shots. Five shots are taken, one for each discipline, for all four distances. Athletes have a maximum time of 15 minutes.

Points are awarded for every try, either zero, one, three or five.

In case of a perfect tie, a barrage is organised. Each player shoots only one boule for each discipline (five in total) from the circle located at 7 meters. If still tied, this procedure is repeated but stopped when one of the players scores more points than the other on a target.

4.2 Competition Rules

4.2.1 Judging

4.2.1.1 Lyonnaise

A referee will supervise the competition. Balls must land no more than 50 cm from the target ball or target goal to be a valid attempt.

4.2.1.2 Pétanque

One referee will oversee the competition. Referees have the authority to disqualify any player or team for the competition refusing to comply with their decisions.

4.2.1.2.1 Classic Doubles

Once the jack is thrown, each player has the maximum duration of one minute to play a boule. This short period starts from the moment when the previous boule or jack stops or, if it is necessary to measure a point, from the moment the latter has been carried out.

If the jack has not been thrown in accordance with the rules, the opposing team will place the jack in a valid position on the terrain. They may also move the circle back, in accordance with the conditions defined in the rules, if the first team's positioning of the circle did not allow the jack to be thrown the maximum distance.

The measuring of a point is the responsibility of the player who last played or by one of their team-mates. The opponents always have the right to measure after one of these players. Measuring must be done with appropriate instruments, such as calipers.

4.2.1.2.2 Precision Shooting

For a shot to be valid, the impact of it must be inside the circle where the targets and obstacles are positioned.

4.2.2. Scoring

4.2.2.1 Lyonnaise

The order in which the different attempts are scored is as explained in the Lyonnaise Speed Shooting scoring document and is summarized below.

13.05 m: position 1

13.85 m: position 2

14.65 m: position 3

All athletes/teams compete in a five-minute time limit, with the aim of hitting the most correctly hit boules.

The winner with the highest score at the end wins. In team competition, each player throws 4 balls in succession before handing over the baton to a partner in the baton zone.

The target position is fixed.

4.2.2.2 Pétanque

4.2.2.2.1 Classic Doubles

A team/player scores as many points as boules are closer to the jack than the closest boule of the opposing team.

4.2.2.2.2 Precision Shooting

The following number of points are awarded, depending on if a target boule or target jack have to be hit.

5 points:

- The target boule is hit correctly and completely leaves the circle, but the shooter's boule remains - for disciplines with obstacles, without touching them.
- The target jack leaves the circle after being correctly hit.

3 points:

- The target boule is hit correctly and both it and the shooter's boule completely leave the circle - for disciplines with obstacles, without touching them.
- The target jack (discipline 5) is hit correctly, but does not leave the circle.

1 point:

- The target boule is hit correctly, but it does not leave the circle.
- For disciplines 2 and 4, the obstacle is touched by the shooting boule rebounding from the target boule, whatever the position of the target boule, the jack, obstacle boule or the shooting boule. The point will only be awarded if the impact of the play-

er's boule is beyond the obstacle that is in front of the target boule.

- For discipline 3, after the target boule has been hit, the shooting boule hits an obstacle boule that remains in the circle.

0 points:

- Missed boule
- Missed jack
- Impact of the thrown boule is before the obstacle jack
- Target boule and obstacle boule leave the circle (discipline 3)

4.2.3 Penalties/Disqualification

4.2.3.1 Lyonnaise

A player may be excluded from the competition by the referee and/or the jury in the event of bad conduct, attitude or dress. White, yellow and red cards may also be issued, which means a simple warning, cancellation of bowling or exclusion of the player. Alcohol tests are carried out during the competition. If the player's blood alcohol level exceeds 0.5 g/l, he will be immediately excluded.

4.2.3.2 Pétanque

For non-observation of the rules during a game, the players incur the following penalties:

1. Warning, which is officially marked by an umpire presenting a yellow card to the player at fault. However, a yellow card for exceeding the time limit will be imposed on all the players of the offending team. If one of these players has already been given a yellow card, they will be penalised by disqualification of the boule played or to be played.
2. Disqualification of the boule played or to be played, which is officially marked by an umpire presenting an orange card to the player at fault.
3. Exclusion of the responsible player for the game, which is

officially marked by an umpire presenting a red card to the player at fault.

4. Disqualification of the team responsible.

5. Disqualification of the two teams in case of complicity. The warning is a sanction and can only be given after an infringement of the rules. Giving information to players or requesting they should respect the rules at the start of a competition or of a match is not to be considered as a warning.

4.2.4 Protests and Appeals

4.2.4.1 Lyonnaise

At the first level, referees have exclusive jurisdiction to decide. A five-person panel will be established and may receive protests and objections from coaches or heads of delegation. Its decisions will be final and without appeal.

4.2.4.2 Pétanque

For each competition there is a special jury (5 people) which receive complaints - but never about the rules ! - and decide

4.2.5 Glossary of Terms

Table 6

Boules Sports Glossary	
Boule	Playing bowls, also called bocce (in Italy)
Jack	Target bowl, also called cochonnet (in French)
Have the point	Having placed the boule closest to the target bowl
Discipline	The different constellations of boules are called disciplines
Boules de tir	boule blanche
Ligne pied du jeu	Ligne où les boules doivent être lancées au plus tard
Shooting ball	white ball
Foul line	Line by which balls must be thrown at the latest

4.2.6 Tactics

Pétanque

In Pétanque Classic, the most common strategy for players throwing the first boule is to aim the boule directly at the jack, so that it will stop right in front of it, or near to it. This is done to prevent your opponent from throwing a boule nearer to the jack, as your boule would act as an obstacle in your opponent's path.

In the event that all your boules are near to the jack, and you have one last boule to throw, while your opponent still has several, it is advisable to throw your last remaining boule so that it is farther away from the jack. While it sounds contradictory, this strategy is good as it ensures that your opponent will not risk shooting too near to the jack, or even at the jack, as it might cause their boule to drive the jack nearer to your boule instead. Your last boule should therefore be thrown not only farther away, but also beyond the jack, instead of in front of it. Sometimes, the game can proceed to the point that the jack is completely surrounded by the opponent's boules. In this case, the only strategy available to the player would be to throw the boule directly at the jack, in hopes that it will drive the jack further away from the opponent's boules. This is also advantageous as hitting the jack would put the boule in closer proximity to it, hence the player would have a point.

4.2.7 Delays

4.2.7.1 Lyonnaise

A team that is not on the field at the scheduled time loses the match. There is no possibility of waiting.

4.2.7.2 Pétanque

The players - or their coach - have to decide an appeal during the match. No appeal is accepted after the end of a match.
